

2021 C.A.A. LIST OF AIRFIELDS TO BE NOTIFIED

Release of Racing Pigeons. In agreement with the Royal Pigeon Racing Association, it has been agreed that a proposed liberation of racing pigeons within 13km of a licensed aerodrome should be notified to the aerodrome authority or air traffic control provider at least fourteen days prior to the date of release. In addition, the ATC unit should be notified by telephone at least 30 minutes before release time, in order to confirm, where practicable, the number of birds due to be liberated and the intended destination and direction of flight. If necessary, the ATC manager or senior controller may request a delay in the liberation by up to 30 minutes (or longer in exceptional circumstances) for traffic purposes.
