

Zak Williams & Granddad, Shotton

Due to land development on the site of our loft, with houses being built in January only 15 metres away, and meaning we now have to carry water 4 miles to the loft for our birds, we have decided to offer these fantastic winning birds, based on our Fab 4 Geert Munnik super breeders.

Geert Munnik was Middle Distance Champion of all Holland 2009. Champion Johnny Boy lines and these 4 siblings, along with selected Gert Heylen & Frans De Meyer birds, have kept us at the very top of Federation racing for the last decade from 80 to 200 miles.

Our stock breed fast maturing & fast flying young birds that are very difficult to beat. In the last three years' young bird seasons, flying in one of the strongest clubs in our federation, only 3 young birds have stopped us from taking 1st prizes, and one of these was 50% our blood.

At Federation level we have been Fed Champions on numerous occasions (see our CV at the bottom of each lot), winning Federation YB Averages 8 times and runner up once, flying against all the latest blood lines.

This sale offers the cream of our family and is packed with good winning & breeding birds, lots 34 and 39 being half-brother and half-sister to the Dam of Ross Lark's NRCC Kings Cup Winner from Lerwick 535 miles 762 birds, 45 mins in front of the second placed bird. They are also half-brother & sister to Super 93 (our Gold Mine Hen), absolute super breeder. All from Fab 57 Geert Munnik super breeder. Lot 31 'Little Diamond' is Dam of a Triple 1st Fed Winner that we have in our loft.
